ABOUT

Following the momentum and global impact of Stopping Traffic, Siddhayatan Tirth Studios and Children At Risk are uniting forces on a larger scale to raise awareness about human trafficking through a seven-city trip to investigate the crisis of human trafficking.

Together they will connect with experts, meet with survivors, inspire activists/philanthropists to support the anti-trafficking movement and help survivors survive through a follow-up film: Stopping Traffic 2: Surviving Trafficking Around the World.
